I have a 10-year-old sister, and I love the happiness she brings into our home. I play with her every day—we go cycling, play volleyball or padel, and sometimes we even ride horses together, which she loves. She is very kind, and I enjoy making her laugh; she always makes my jokes feel like they are the best in the world. I am 15 years old and very excited to go to the United States and have an incredible experience in my life... We have a very united family and always spend weekends doing things together, like going shopping or visiting beaches near the capital. During our summer vacation in December and January, my family, friends, and I spend many days enjoying the beaches in the east, which everyone here loves. As for me, I am very active, a responsible student, and I have great relationships with my classmates and teachers. I get good grades and hope to become a doctor like my father. At home, I help my mom with chores, and even though I don't cook very well yet, I hope to prepare something for you. I enjoy going to the gym and playing basketball—I used to play for the city team, and I hope to play for my American school too. I also love pets, especially dogs. On weekends, I go to church with my family and sometimes with friends. Dear family, I am very happy about this experience, and I am sure we will be a great match. I am easygoing, and I know our relationship will be wonderful.</i></p>	AVAILABLE

BR109	<p>Name: NATHAN Gender: Male Age Upon Arrival in the U.S.: 16 Country: BRAZIL Preferred Grade of Enrollment: 12th Grade Family: He has one sister (age 4) Religion: Christian Program Length: Fall 2026 Semester (August – December) Interests: Martial arts, soccer, table tennis, aerobics, photography, computers/technology etc. Health: Student is allergic to sea food/shrimp.</p> <p><i>EXCERPT FROM STUDENT LETTER: My name is Nathan, and I am writing this letter with great enthusiasm and gratitude, hoping to introduce myself to you and share a little about who I am, my values, my interests, and my expectations regarding the exchange program. Becoming an exchange student in the United States represents a unique opportunity for personal, academic, and cultural growth, and it would be an honor to experience this journey as a member of your family...Another important reason for my interest in the exchange program is the opportunity to build lifelong friendships. I believe that relationships are the foundation of everything. The American school environment is diverse and welcoming, and I am excited about the possibility of making friends from different backgrounds. I am certain that these connections will have a positive impact on my life and may last long after the program comes to an end. Living with a host family is, for me, the most meaningful part of this experience. It offers the opportunity to truly learn about American culture, values, and traditions in an authentic way. By sharing daily routines, family moments, and celebrations, I hope to gain a deeper understanding of American society, its history, and its way of life. At the same time, I would love to share aspects of my own culture with you. I come from a border region, which allows me to experience different cultures. I enjoy sharing traditions, customs, music, rhythms, cuisine, and stories about life in my country, and I believe this cultural exchange enriches everyone involved. Regarding my personal interests, I am passionate about combat sports. In my opinion, they are among the best sports because they help calm the mind, teach discipline, and develop self-control, while also providing important self defense skills. I also enjoy playing soccer. Although I am not a professional player, I have my own abilities on the field. I play regularly with my friends and practice this sport at school, and I truly enjoy teamwork and friendly competition...</i></p>	AVAILABLE
